ABOUT COSTANDINO

I am a software engineer with two years of working experience. I have a genuine eagerness to learn, exceptional teamwork skills, and a consistent track record of delivering high-quality results. I am organised and motivated to achieve optimum results in any and all tasks I am given.

CODING SKILLS

- HTML, CSS
- C#
- SQL
- TypeScript & JavaScript
- Flutter [Learning]
- Solidity [Learning]

EXPERIENCE

2023 - Present ~ MetaFushko Inc

Co-Founder and Junior Software Engineer

- I am a co-founder of MetaFushko Inc. As part of my role, I actively contributed to coding, development of smart contracts, web3 games, smart contracts and NFTs. I was also responsible for managing and leading a team of developers, 3D and 2D artists as well as marketers.

2022 - 2023 ~ Paycorp payment services

Junior Software Engineer

- I took on an early role as a team-lead and managed various developers below me. In my role as team-lead I exhibited excellent communication skills, goal-setting, strategy-planning, and organisational skills. I worked on developing a web application that assisted the finance department to monitor and pay merchants who own a self-cashing ATMs. I had also worked on smaller projects for other departments within the company.

2022 - Present ~ Freelance Developer

- I worked as a website developer on a freelance basis. During my time as a freelance developer, I worked with clients to establish project requirements, target audiences, and identify solutions to any issues encountered so as to create the best website solution for the client base.

2013 - Present ~ DJ

- I started my own DJ'ing business in 2013 and continue with ongoing events to date.

2016 ~ Krispy Kreme South Africa

- Worked in an assistant managerial position

2013 ~ Fournews Developments

- Assisted in the factory, particularly with stock take and distribution of Fournews logistics inventory
