ABOUT COSTANDINO

I am a software engineer with two years of working experience. I possess an innate passion for continuous learning, unparalleled teamwork abilities, and a proven history of consistently delivering exceptional outcomes. I approach tasks with meticulous organisation and unwavering motivation, striving to achieve optimal results. Moreover, my remarkable entrepreneurial spirit and determination drive me to actively contribute to the growth and development of businesses.

CODING SKILLS

- HTML, CSS
- C#
- SQL
- TypeScript & JavaScript
- Flutter [Learning]
- React [Learning]

EXPERIENCE

2023 - Present ~ MetaFushko Inc

Co-Founder and Software Engineer

- I am a co-founder of MetaFushko Inc., a blockchain company that develops smart contracts, cryptocurrencies, NFTs, and web3 gaming services. As part of my role, I actively contributed to coding and development as well as being responsible for managing, running the project build and leading a team of developers, 3D and 2D artists, and marketers.
- MetaFushko Inc. initially began with a humble duo, and it has since flourished into a cohesive team of ten exceptional colleagues.

2022 - 2023 ~ Paycorp payment services

Junior Software Engineer

- I took on an early role as a team-lead and managed various developers below me. In my role as team-lead I exhibited excellent communication skills, goal-setting, strategy-planning, and organisational skills. I worked on developing a web application that assisted the finance department to monitor and pay merchants who own self-cashing ATMs. I also worked on smaller projects for other departments within the company.
- I maintained frequent and meaningful interactions with the group Chief Information Officer and other esteemed senior leaders within the organization. Additionally, I took on the responsibility of delivering regular presentations to these executives, and providing comprehensive project updates.

2022 - Present ~ Freelance Developer

- I worked as a website developer on a freelance basis. During my time as a freelance developer, I worked with clients to establish project requirements, target audiences, and identify solutions to any issues encountered so as to create the best website solution for the client base.

2016 ~ Krispy Kreme South Africa

- Worked in an assistant managerial position

2013 ~ Fournews Developments

- Assisted in the factory, particularly with stock take and distribution of Fournews logistics inventory

2013 - Present ~ DJ

- I started my own DJ'ing business in 2013 and continue with ongoing events to date.
