ABOUT ME

I am a software engineer with two years of working experience. I possess an innate passion for continuous learning, unparalleled teamwork abilities, and a proven history of consistently delivering exceptional outcomes. I approach tasks with meticulous organisation and unwavering motivation, striving to achieve optimal results. Moreover, my remarkable entrepreneurial spirit and determination drive me to actively contribute to the growth and development of businesses.

WORK EXPERIENCE

Front-End Web Developer & UX Specialist
Bettabets

June - Present
2023 - Present

- As the Lead Frontend Developer and UX Specialist at Bettabets, I've transformed the online casino to a whole new level, creating an eye-catching and intuitive user experience. Through the use of A/B testing, heatmaps, user recordings, and other data analytics, I've optimized functionality and engagement as well as leading a major increase in efficiency. My innovative approach has not only revamped the platform but also positioned Bettabets as a leader in online casino design, showcasing my prowess in frontend development and UX enhancement.

Co-Founder and Software Engineer
MetaFushko Inc

Jan - June
2023 - 2023

- I was a co-founder of MetaFushko Inc., a blockchain company that developed smart contracts, cryptocurrencies, NFTs, and web3 gaming services. As part of my role, I actively contributed to coding and development as well as being responsible for managing, running the project build and leading a team of developers, 3D and 2D artists, and marketers.
- MetaFushko Inc. initially began with a humble duo, and it since flourished into a cohesive team of ten colleagues.

Junior Software Engineer
Paycorp payment services

Jan - Jan
2022 - 2023

- I took on an early role as a team-lead and managed various developers below me. In my role, I exhibited excellent communication skills, goal-setting, strategy-planning, and organisational skills. I worked on developing a web application that assisted the finance department to monitor and pay merchants who own self-cashing ATMs. I also worked on smaller projects for other departments within the company.
- I maintained frequent and meaningful interactions with the group Chief Information Officer and other esteemed senior leaders within the organisation. Additionally, I took on the responsibility of delivering regular presentations to these executives, and providing comprehensive project updates.

Freelance Developer

Jan - Jan
2022 - 2023

- I worked as a website developer on a freelance basis. During my time as a freelance developer, I worked with clients to establish project requirements, target audiences, and identify solutions to any issues encountered so as to create the best website solution for the client base.
