PROFILE

Frontend Engineer with 4+ years of experience building customer-facing web products in online gaming and fintech. Strong in Angular, TypeScript, NgRx and RxJS, with experience delivering scalable sportsbook features in enterprise Nx monorepos. Focused on clean UI architecture, real-time product experiences and collaborative Agile delivery.

PROFESSIONAL EXPERIENCE

BETSSON GROUP
January 2025 - Present

Intermediate Frontend Engineer — *Malta, Europe*

- Develop and maintain customer-facing B2B sportsbook features using Angular, TypeScript, NgRx and RxJS in a large Nx monorepo.
- Build reusable, responsive interfaces for live events, tournament lobbies, market lists and betting experiences using complex real-time sports data.
- Collaborate with product, design, QA and backend teams to deliver reliable features from refinement through release.
- Improve UI behaviour, state management and cross-browser experience across high-traffic sportsbook journeys.

Hooligan Development
April 2024 - July 2024

Software Developer — *Johannesburg, South Africa*

- Contributed to the National Student Financial Aid Scheme (NSFAS) application in South Africa, trusted by over 1.2 million students.
- Utilised Angular to develop a seamless and efficient web application, improving user experience.
- Optimised the web application for enhanced speed, modernity, and user-friendliness.

Bettabets
June 2023 - April 2024

Front-end Developer — *Johannesburg, South Africa*

- Developed and designed the Bettabets online casino platform, attracting a user base of 80,000+ active monthly users.
- Utilised HTML, CSS, and JavaScript to create a seamless, dynamic, and user-friendly online casino interface.
- As the lead Front-end Developer and UX/UI specialist, I transformed the platform to a whole new level, creating an eye-catching and intuitive user experience.
- Implemented A/B testing, heat-maps, user-recordings and data analytics to optimise functionality and engagement, leading to a major increase in efficiency.
- Revamped the platform, positioning Bettabets as one of the leading online casinos in South Africa.

EARLIER PROFESSIONAL EXPERIENCE

Paycorp Payment Services

January 2022 - January 2023

Software Developer - Full Stack

Johannesburg, South Africa

- Developed an in-house web application to streamline financial processes for monitoring and payment of self-cashing ATM merchants.
- Tech stack included Angular, C#, and SQL, with integration of code testing tools, software containers, and Azure services.
- Contributed to smaller-scale projects across various departments, demonstrating versatility in technical expertise and project management capabilities.
- I took on the responsibility of being the team-lead and delivered presentations to the executives, and provided comprehensive project updates.
